1. The first group of people who are interested in the results of the study are the researchers themselves. They want to know if the study was successful in achieving its goals and if the data collected is reliable and valid. This information is crucial for them to draw conclusions and make recommendations for future research.

London, August 4<sup>th</sup> 1870. Sir, I have the pleasure to acknowledge the receipt of your letter of the 27<sup>th</sup> inst.

1. The first group of people who are interested in the study of the history of the world are the historians. They are the people who study the past and write about it. They are the people who tell us what happened and why it happened. They are the people who help us to understand the world and ourselves.
